<ul style="list-style-type: none"> <input type="checkbox"/> 18 to 22 January 2021 <input type="checkbox"/> 15 to 19 Feb 2021 <input type="checkbox"/> 1 to 5 March 2021 <input type="checkbox"/> 15 to 19 March 2021 <input type="checkbox"/> 29 Mar to 2 Apr 2021 <input type="checkbox"/> 17 to 21 May 2021 <input type="checkbox"/> 14 to 18 June 2021 <input type="checkbox"/> 28 Jun to 2 July 2021 <input type="checkbox"/> 12 to 16 July 2021 <input type="checkbox"/> 2 to 6 August 2021 <input type="checkbox"/> 23 to 27 August 2021 <input type="checkbox"/> 20 to 24 Sept 2021 <input type="checkbox"/> 4 to 8 Oct 2021 <input type="checkbox"/> 25 to 29 Oct 2021 <input type="checkbox"/> 15 to 19 Nov 2021 <input type="checkbox"/> 29 Nov to 3 Dec 2021 <input type="checkbox"/> 13 to 17 Dec 2021 <input type="checkbox"/> 27 to 31 Dec 2021 	<p>Master Jaya Greentech Sdn Bhd Wisma Master Jaya, 20, Jalan Taming 3, Taming Jaya Industrial Park, 43300 Seri Kembangan, Selangor. Time : 8.30am to 5.30pm</p> <p>COURSE FEE : RM4,240.00 (INCLUSIVE 6% SST) per person (Including course material, lunch, tea break & Certificate)</p> <p>(Closing Date: 30 days before course) Payment should be made 30 days before the course</p>	<p>30 CPD HOURS</p> <p>Trained over 1,800 CePSO Participants since 2006</p> <p>TRAINING MATERIAL</p> <p>CePSO Jacket Bag Training Module</p> <p>Calculator Guidance Book Law Book</p>

TO ENSURE COMPLIANCE TO DOE ENVIRONMENTAL QUALITY (CLEAN AIR) REGULATION 2014, YOU NEED COMPETENT PERSON TO SUPERVISE YOUR SCRUBBER OPERATION

BENEFITS OF ATTENDING:

- ✓ Become a Competent Person (certified by DOE EiMAS) to operate and supervise the scrubber operation as per DOE legal requirement
- ✓ Comply to DOE Environmental Quality Act & Clean Air Regulations
- ✓ Able to conduct scrubber Performance monitoring follow DOE requirement
- ✓ Maximize scrubber efficiency & ensure smooth operation
- ✓ Minimizing unnecessary plant shutdown due to scrubber problems and non-compliance with DOE standards.

ENTRY REQUIREMENT:

Candidate must possess:

- ✓ Diploma or Degree in Science or Engineering ; or
- ✓ Certificates from polytechnic or SKM with level 2 with 1 year experience; or
- ✓ SPM with 3 to 5 years working experience in scrubber operation

WHO SHOULD ATTEND :

Industry personnel who are in charge of the operation, supervision, maintenance & management of the scrubber at manufacturing plants.

WHAT OUR PARTICIPANTS SAY :-

"The course was very informative. The delivery of information was excellent as well as the assignment given. Any doubts was excellent answered by instructor"

-Kavitra A/P Rajendran, BASF (M) Sdn Bhd

"Trainer was excellent and helpful. The training centre was excellent and comfortable also convenient place. The training was well structured and easy to understand"

-Aimi Fakhri Sobri,DKLS Quarry & Premix Sdn Bhd

COURSE INTRODUCTION

One of the main air pollution control system widely used in the industries in Malaysia for the control of air pollutant is scrubber. The success operation of a Scrubber is primarily in the hands of the operator. A knowledgeable and skilled operator, supervisor or engineer know how to monitor the processes occurring in his scrubber, understand what factors affect the scrubber performance, know what operational conditions are best for his scrubber and how to maintain them, know how to respond to upset conditions, understand the social obligations and legal implications for non-compliance.

Successful operation of a scrubber is an integral part of the operation of a successful industry. A trained and skilled scrubber operator, supervisor or engineer is not anymore a luxury but rather a must-have to the industry. Good environmental performance not only portray positive corporate image, but avoid possibility of factory downtime and hefty monetary penalties due to legal actions from the environmental authority.

EIMAS is providing a training program to train your scrubber operators, supervisors and engineers to be competent in operating scrubber particularly in conducting performance monitoring of the scrubber. The competent person will ensure that the scrubber is operating optimally.

This unique training course which focuses on hands-on approach is in fact the only one of its kind in Malaysia. A Certificate of Competency will be awarded to participants who successfully completes the course, passes the examination and submits a field training report.

OBJECTIVE

- Effective scrubber performance monitoring and preventive maintenance
- Proper scrubber operation to ensure smooth production
- Cost reduction in maintenance & production down time
- Compliance to DOE Environmental Quality Act & Clean Air Regulations and to avoid penalty

COURSE CONTENT

Day 1

- Introduction of Air Pollution Control System (APCS)
- Introduction of various types of scrubbers
- Operating principle of scrubbers
- DOE legal requirement

Day 2

- Scrubber Components (Hands-on training)
- Fan introduction

Day 3

- Performance monitoring & Record keeping as per DOE requirement
- Preventive maintenance

Day 4

- Hands-on performance monitoring
- Scrubber common operating problems and troubleshooting
- Case study
- Field training report preparation

Day 5

- **Examination** (Practical and Written)
- Presentation of Certificates of Attendance

COURSE METHODOLOGY

- Lectures
- Course assignment
- Hands on practical training using industry size scrubber at our Hands-on Air Pollution Control Training Center
- Group discussion

ABOUT THE TRAINER

Dato' Serafin Woo Hooi Ling

- Holds a B. Eng. (Hons) Degree in Mechanical Engineering from University of Sheffield, UK and M. Sc. in Environmental Engineering from University Putra Malaysia.
- Obtained extensive knowledge and practical hands-on experience in the industrial air pollution control industry over the past 20 years working in the industry in Malaysia.
- Areas of expertise include training, consulting, designing, project management, manufacturing, installation, testing & commissioning of bag filter dust collector, scrubbers, cyclones, oil mist filters, odour control system, local exhaust ventilation (LEV), ducting, chimneys & fans.
- She has conducted many seminars and training courses on Industrial Air Pollution Control for more than 3000 industry participants and DOE officers since year 2005.
- Closely collaborating with DOE & EIMAS on developing competency certification modules for the DOE's officers and the industry.
(Competency Serial No. : CEPBFO/5822 and CEPPO/5822)

Puan Norhayati Binti Yahaya

- Holds a B. Sc. In Biology (UKM Sabah).
- She has 23 years' experience working in DOE in the field of Law Enforcement and Environmental Management.
- She was appointed as Director of DOE Penang State Office in 2014 until her early retirement from Government sector in 2016.

Dato' Andrew Leong Chee Mun

- He has worked over past 15 years on many substantial sized projects responsible on the design, consult, sales and marketing, project management, manufacture, installation and commissioning of Air Pollution Control System for various manufacturing and process industries in Malaysia and in the Asean countries.
