

**ANNOUNCEMENT ON NEW REQUIREMENT  
ON PERFORMANCE MONITORING OF  
INDUSTRIAL AIR POLLUTION CONTROL SYSTEMS (IPCS)**

Industries which are equipped with an Air Pollution Control Systems (APCS) are required to conduct performance monitoring activities to ensure that the APCS is being operated optimally and is in good working conditions. The industries are advised to refer to the guidance document issued by the Department of Environment entitled Technical Guidance Document Series No: DOE-APCS-5: Technical Guidance on Performance Monitoring of Air Pollution Control Systems for guidance on how to conduct performance monitoring of an APCS. The requirement on conducting performance monitoring of APCS has been made mandatory to all new cases of Written Permission (WP) by stipulating the requirement in the WP conditions of approval. Existing industries are also required to comply with this requirement no later than December 31<sup>st</sup> 2007.
